YARDS AT CARBON AND SWALWELL

LITTLE ITEMS OF LOCAL INTEREST

Little Shirley McKibbin was taken into Calgary on Sunday morning, suffering from appendicitis. She was operated on immediately and the latest reports are that she is not progressing as favorable as was hoped for.

Born, to Mr. and Mrs. H. C. Willson on Monday, June 24, a son.

Miss Phyllis James returned home on Saturday from Camrose, where she has been attending Normal School.

Born, to Mr. and Mrs. A. H. Moore, on Friday, June 21, a son.

Dr. and Mrs. McFarlane were Calgary visitors on Friday last.

The Imperial Lumber Yards property is receiving a coat of paint this week.

John Lelske was a visitor to Calgary this week. We understand that Mrs. Lelske is quite ill in the hospital there.

Roy James returned on Saturday after spending the past week at Mirror, Alberta.

Don't forget the Carbon Stampede and Sports Day on Monday and Tuesday of next week. A real good time is promised and we want to see everyone out that day.

A fairly heavy shower visited this district on Tuesday evening and the little moisture brightened the crops up a bit. This was the first signs of rain this spring and the crops are badly in need of a good 24-hour rain.

Paul Wells, of the Imperial Lumber Yards staff, has completed a boat which he intends to use on the newly formed lake, caused by the dam in the creek.

There was an item in last Saturday's Calgary Herald about the building boom in Carbon.

J. Guttman's store will be ready to move into this week end.

Jos. Connolly and W. Edwards were visitors to Big Valley on Sunday.

There will be a Bridge and Whist drive in aid of the Carbon school fair, in room 4 of the Carbon school on Friday, June 28, at 8.30 p.m. Admission 50c.

Friday and Saturday, July 5 & 6

ELKS' STAMPEDE PROGRAM BROADCAST OVER C.F.C.N.

The advertising committee of the Carbon Sports Day and Stampede have decided to have a general write-up broadcasted over the radio and these programs commenced on Monday of this week at the noon hour. The same program was broadcasted at the noon hour on Tuesday and it will again be over the air on Friday (tomorrow) night during the old time program, and on Saturday during the noon hour. Tune in on station C.F.C.N. at these last mentioned dates and take an interest in what outsiders are learning about Carbon and its Stampede.

The Ladies Aid of the Carbon United church are holding a Strawberry Social in Mr. Guttman's new store on Saturday, afternoon and evening.

P. HALLAM OF IRRICANA WINS CARBON DISTRICT IN HERALD PLAY-OFFS

Percy Hallam of Irricana was declared the winner of the Carbon district in the Herald competition here on Sunday, when he turned in the lowest score for the 36 holes of golf, played over the Irricana and Carbon Golf Courses.

Six of the Irricana boys came over on Sunday and a very enjoyable day was spent on the links. Among the visitors present were, Messrs. Bruce Hay, Harold Honens, D. Howell, H. Miller, F. Ewing and P. Hallam.

In winning this district Mr. Hallam is entitled to participate in the finals in Calgary about the end of July, for the championship of Alberta and we wish him every success in his endeavor to lift the provincial trophy.

WRIGLEY'S

WORLD HAPPENINGS BRIEFLY TOLD

Manitoba contemplates celebrating its diamond jubilee on July 15, 1930. It was announced at Winnipeg by Premier John Bracken.

The London Daily Sketch said Premier MacDonald had refused Leon Trotsky, former Russian war chief, permission to enter Great Britain as he requested recently.

The Japanese naval training cruisers "Ahama" and "Iwate" will visit Vancouver on August 10-12, it was stated at the Japanese consulate there.

Albert Voight, a German, has left Seward, Alaska, in a 16-foot, collapsible walrus skin sail-boat for New York. He hopes to complete his 6,700-mile trip in six months.

Charles Colebrook Patterson, eldest son of the late Hon. J. C. Patterson, former lieutenant-governor of Manitoba, is dead. He was born in Ottawa, in 1868, and for a number of years was his father's secretary.

Flight tests will soon be made of television apparatus calculated by its inventor, C. Francis Jenkins, Washington physicist, to reproduce conditions as seen from an aeroplane, on a screen miles away.

Japan's co-operation in any disarmament program negotiations that Premier Ramsay MacDonald and Ambassador Dawes may have begun has been promised by Premier Tanaka.

France is preparing to bring into force a wide scheme of social insurance. It will cover sickness, old-age incapacity, maternity benefits and, to a certain extent, unemployment.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

Makes For Unemployment

One of the causes of unemployment in Europe is that our working lives have been prolonged, declares a statistician. At one time, he says, "too old at forty" was the cry throughout the world, but we have now found that we are not too old a 60 or 65.

A Severe Attack of Dysentery Checked by 4 Doses

Mr. I. Burtonwood, 620-22nd St. W., Saskatoon, Sask., writes: "My child, when only seven months old, had a very severe attack of dysentery, and after three days' treatment with other things we decided to use on this day his bowels had moved twenty-three times in eleven hours, but four doses checked it."

"A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours."

"We both always keep a bottle of Dr. Fowler's handy at all times. This medicine has been on the market for over 80 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont."

W. N. U. 1791

Declares Allies Fear Of Germany Absurd

Only Nation Without Arms Says
Minister Of Defence

Dr. Wilhelm Groener, minister of defence, in a speech reviewing Germany's military policy charged that the states victorious in the world war have done nothing along disarmament lines and endeavored to show that it was absurd for the allies to claim they could not disarm until they were sure of not being attacked by Germany.

Speaking of present military forces, he said:

"France has, on European soil, 27 divisions; Belgium six; Poland 36, and Czechoslovakia 26 brigades, a total of 76 divisions compared with Germany's seven. Who, I ask, needs security? I can't leave unmentioned that besides these troops, the other nations also possess aviation squadrons, heavy artillery and powerful reserves of trained men and war material of a kind we do not possess at all."

A WARNING TO MOTHERS

Watch the Health Of Your
Little Ones At All Times

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject, but she can do much to lessen the severity of these troubles. The mother should be constantly on her guard to prevent childhood ailments, or if they come on suddenly as they usually do, to have the means at hand to relieve them. Thousands of mothers have found Baby's Own Tablets the ideal remedy for little ones—thousands of mothers always keep the Tablets in the house as a safeguard against the sudden illness of their little ones.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels; sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth easy. The Tablets are absolutely guaranteed free from injurious drugs and may be given to the youngest child with perfect safety. They are sold by medicine dealers or by mail at 25c, a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Speckled Trout For Jasper Park Lakes

Anglers May Expect Real Sport In
Canada's Largest Mountain
Playground

So successful was the experiment made by the Dominion Government last year in stocking Maligne Lake, in Jasper National Park, with trout, that a quarter of a million more fry are now growing up in the hatchery there, and will be turned loose in the great glacial lake in a few weeks time.

As eggs, the 250,000 travelled to Jasper from Cresco, Pennsylvania last winter, and so carefully was the precious freight handled by the Canadian National Express that only 70 of the eggs failed to hatch. Arrived at Jasper, the eggs were given into the care of Warden Herbert Davis, who is carefully nursing them, along. He feeds the multitude four pounds of chopped liver a day and keeps the water moving and at a proper temperature.

Early in June the fingerlings will be taken out of their trays and transported in time to Maligne. "The fish put in there last year," says I. Langford, supervising warden, "have done marvellously well and have grown to a good size. They and the new batch are speckled trout. We expect a shipment of rainbow trout in a few weeks for Cabin Lake."

How Names Were Given

Europe is derived from Europa, in Greek mythology a woman who was carried off by Jupiter, who came to her disguised in the form of a white bull and bore her to the island of Crete. The Greek word is said to be derived from the Semitic 'ereb' meaning darkness, evening sunset. Asia is said to derive its name from the Semitic word "acu" meaning going forth, or rise of the sun.

"What would you say to anyone who sits himself down on your hat?"

"I should call him an idiot a stupid ass."

"That's all I wish to know — you are sitting on mine!"

Use Minard's for the rub down.

A Remarkable Hotel

Built On Swiss Alps and Is 11,480
Feet Above Sea Level

One of the most remarkable hotels in the world is the Jungfrauoch, perched high up on the Jungfrau, in the Bernese Alps, Switzerland, 11,480 feet above the level of the sea. Built of stone and iron, the hotel is welded, as it were, into the sheer rock of the famous mountain. Snows surround it eternally, and, in winter, it is buffeted by the fiercest blizzards of the Alps. But it gives hospitality and warmth to climbers and to the tourists who visit the mountain by the funicular railway from above Interlaken. From the windows of the hotel lounge one often looks out upon a world of clouds, through which some of the high peaks of the Bernese Oberland stand out like rugged islands.

Nearly every member of the hotel staff is an expert mountaineer. For though the funicular runs to within a short distance of the hotel there are often long spells during the winter when the heavy snows prevent all communication with the outside world. Then, the only means of reaching civilization is by ski along dangerous mountain tracks. The Jungfrauoch hotel had its origin in a ramshackle shelter but built by workmen when engaged in the construction of the funicular in 1912. From this dwelling where they ate their simple meals of beer and bread has arisen the hotel that is unique in the world.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, a most effective vermifuge. It is absolute in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

Professor—Go your fastest my man! I am in a desperate rush.

Taxi Driver (after speeding along for 30 minutes) Say, you forgot to tell me where we are going.

To Make Huge Flagpole

Giant Stick Of Timber Shipped From
B.C. To Toronto

A giant stick of timber, from which when converted into a flagpole the Union Jack will next year float at the Canadian National Exhibition, Toronto, was successfully loaded on the Canadian National S.S. Canadian Ranger, which has taken it to Montreal, whence one of the Canada Steamship Line steamers will convey it to Toronto.

The stick, which is second only in size to that donated a few years ago to Kew Gardens, London, England, was located on the timber limits of the Timberland Lumber Company, on Vancouver Island, and has been donated to the Exhibition as an advertisement of the huge size of British Columbia trees. It will be kept a year to thoroughly season and when trimmed down it will measure 184 feet in length, 34 inches diameter at the base and 10 inches at the top.

To stow such a huge timber required some skill, as the big stick is longer than the open deck space on the vessel. It was, however, loaded without any mishap on the top of deckload of lumber on the "Canadian Ranger" at the Burrard Drydock.

For Catarrah.—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as outwardly. Sufferers from catarrah will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Canadian Delegates For Press Conference

Dominion Will Have Largest Representation At Imperial Meet
Next Year

J. H. Woods, managing editor of the Herald, Calgary, Alta., recently sailed for London, where he will consult with the council of the Empire Press Union in connection with the Canadian contingent of press delegates to the Imperial Press Conference, being held next year. Mr. Woods said that Canada will be sending 20 delegates to represent the 60 members of the Union in Canada. This is the largest representation of any part of the Empire.

The last conference was held in Australia in 1925, and the one previous to that, in 1920, was held in Canada. The Imperial Press Conference is being held in London, England, in June of next year.

"Skinny" Women! Gain Weight Quick

New IRONIZED YEAST adds
pounds in few weeks. Results
guaranteed—or pay nothing

Why let a "skinny" body, bony limbs and ugly hollows ruin your charm? Ironized Yeast adds 5 to 15 pounds often in few weeks; clears your skin; banishes wrinkles; gives you new strength. People ask—how does Ironized Yeast work so fast.

Ironized Yeast is two great tonics in one. Weight-building YEAST treated with two kinds of strengthening, blood-enriching IRON used for years by highest medical authorities. The Yeast is also treated with Violet Rays to increase its effectiveness.

Only when Yeast is Ironized is it most effective. Iron is needed to bring out the weight-building, strengthening values of Yeast.

Pleasant tablets. No "yeasty" taste. No gas or bloating.

No excuse to stay "skinny," weak or pimply. Feel and look years younger. Get full size treatment of Ironized Yeast today from any druggist. If not delighted with quick results, get your money back. If inconvenient to buy from druggist, send \$1.25 direct to Canadian Ironized Yeast Co., Ltd., Fort Erie, Ont. Desk 426-MX.

The "Canadian Mediterranean"

Montreal Journal Sees Important
Future For the H.B.R.

Commenting on the completion of the Hudson Bay Railway, Le Devoir, of Montreal, edited by Mr. Henri Bowassa, expresses the belief that the new line to the Canadian Mediterranean will prove a valuable addition to Canada's transportation system, not only as a development road, but as an export route. The richness of the country through which the railway passes has already been proved, Le Devoir states, foreseeing large mineral, pulp and paper, and metallurgical establishments along the road. It applauds also the manner in which the Government is amassing data on the navigability of the Bay, and concludes: "It is improbable that the route will become a serious competitor of the St. Lawrence, but it is sure to be useful, and will become so more and more as seamen become familiar with navigation conditions."

Minard's Liniment for sick animals.

University Of Alberta

The University of Alberta has just celebrated its twenty-first birthday. The first president, Dr. H. M. Tory, now president of the National Research Council of Canada, and the first premier of the province, Hon. A. C. Rutherford, participated in the anniversary ceremonies.

WINDOLITE

The Improved
Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let

Distributors: JOHN A. CHANTLER & CO., LTD.
51 Wellington St. W. TORONTO, ONT.

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays, are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

CHAPTER I.

Cool gray dawn of a work day in the modern Babylon—New York. The black curtain of night rose silently, seeming to trail ghostly spirals of mist. Against the sky's flat monotone the irregular and fantastic shapes of the skyscrapers stood out boldly—powerful and mysterious creations of Man.

In the dark canyons of the city streets dark figures moved purposefully toward their destination—factory hands with lunch kits tucked beneath their arms, stalwart steel-construction men who carried the pride of craft in their way of walking, slim girls with the vivid memory of the night's romantic dreams still shining in bright eyes.

But uptown, in the glittering play places of the city, was a sharply contrasting scene. In the "roaring forties" and "nifty fifties," where denizens of Broadway and fashionable Park Avenue "make whoopee" through the sleeping hours, the night clubs were ending their day. Through the tinselled doorways came lovely ladies in ermine coats and jeweled slippers, and men with silver-topped walking sticks, and top hats at rakish angles. Their heavy listlessness was broken occasionally by hysterical laughter.

In the lobby of the resplendent Plaza Club, Marcus, the revue producer, helped a pretty young actress into her fur coat. As he did so his arm went around her lingeringly for a moment, while she turned her graceful head and glanced knowingly into his eyes. Another man and girl of the Marcus party waited nearby.

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."

—Mrs. Milton McMullen, Vanessa, Ontario.

Lydia E. Pinkham's Vegetable Compound

Little Pinkham Med. Co., Lynn, Mass., U.S.A.
442 Quebec, Ontario, Canada

W. N. U. 1791

"Well, let's call it a night," suggested Marcus, his hand resting affectionately on the girl's arm.

"No—ple-ase! Let's not go home. We can have lots of fun yet."

Her tone was wheedling, her smile gay. She was playing up to Marcus, first, because he was the great Marcus, secondly, because she wanted her own way. And now she turned to the other couple.

"Don't let him send us home yet," she said in the tone of a spoiled child. "We're having fun. We can go to some other place."

The other man and girl nodded, and the actress turned to Marcus.

"You see!"

Marcus sighed, then made one last stand.

"All the other places will be closed," he insisted.

"No, they won't. Blackie Joe's is open—the fun is just starting down there."

The revue producer made a grimace of distaste. "But that's such a dump."

Suddenly the actress seized Marcus by the arm and led him toward the doorway. She spoke rapidly and soothingly into his ear:

Marcus acquiesced with a faint smile and a characteristic shrug of the shoulders. The chauffeur of his handsome limousine sprang to attention and swung the car door open as the party came down the steps. They stepped inside and the car purred away.

Inside, Marcus felt the girl's head on his shoulder. He put up his hand and stroked her glossy hair, keeping his eyes straight forward. Yes, he liked her, but he liked many women. Primarily, this shrewd revue creator was interested in women as talent for his gorgeous productions. His gift for "spotting" talent had made him Broadway's most notable figure in his line. To be "discovered" by Marcus meant fame for any girl.

The car drew to a stop before the shabby exterior of Blackie Joe's place; the party mounted the narrow, unpainted, somewhat rickety stairs; at the top the peep-hole panel of a locked door was pushed aside in response to Marcus' knock. The suspicious eyes of the doorkeeper looked them over, then cautiously swung the door back.

Inside the tiny lobby they surveyed through another doorway a smoke-filled room and a crowded dance floor, where closely massed figures undulated to the muffled but insistent rhythms of jazz music. An odor of stale beer greeted them and again Marcus made a grimace of distaste, which he quickly stifled. When the check girl had taken their wraps they moved toward the main room.

This was slumming with a vengeance, thought the fastidious Marcus. In contrast to the brilliant and richly upholstered club they had just left this hideaway of the downtown back streets seemed strangely threadbare and woebegone.

The producer did not like the appearance of some of the patrons. As his party entered the low-ceilinged main room the dance music stopped and the couples threaded their way back to their tables. A curious and rather sinister quietness pervaded the room for a moment; Marcus and his expensively garbed friends were met by lowering stares that seemed threatening.

Marcus' keen, darting glance caught the covetous gaze of a man at a nearby table fixed on the heavily jeweled hand of his actress friend. Without a word the producer stepped in front of her protectingly. And then—

Suddenly the figure of Blackie Joe himself appeared across the room. He strode toward them rapidly with his best welcoming smile.

"Well, Mr. Marcus, this is a great honor!"

Marcus relaxed with a sigh of relief and took Blackie's outstretched hand. Blackie turned toward the back of the room, calling:

"Hey, Al! Ringside table for four!"

Al Stone, the head singing waiter and prize comic at Blackie's place, spun about. From their appearance these were important people.

"This way, ladies and gentlemen. Here's a nice spot."

The party relaxed about the round, white-topped table. Then Marcus, czar of the Broadway revues, turned to give the order. He looked up into the handsome, intelligent face of Al Stone, the obscure performer. As he

APPETITE

IMPROVED

... QUICKLY

Enjoy the Taste of Food If you have no desire for food, and you feel out of sorts, and depressed, stimulate your digestive organs. Try Dr. Carter's own formula. These pills taken after meals will aid digestion, relieve the gas, regulate the bowels, expel constipation poisons and arouse appetite. All Druggists 25c and 75c red pkgs.

CARTER'S LIVER PILLS

did the actress next to him whispered, "Four beers?" Marcus nodded and repeated the order to Al.

The waiter straightened up and looked about for Blackie. These people were important, but he couldn't fill the order until he had the high sign from Blackie. He caught Blackie's eye and saw his right hand go up with the okay gesture. Then he turned away.

Who were these people he wondered, toward whom the boss behaved so deferentially? Well, it didn't matter. You could see, to look at them, they had plenty of jack. Later he would sing one of his best comic songs for them. They would probably loosen up with a good tip.

Someone else was speculating on the Marcus party, too. In the background, several tables away, stood Grace Farrell, the cigarette girl, her slim fingers resting on her tray, which was suspended from her shoulder by a wide ribbon. Her eyes were wide with awe, for she had heard Blackie Joe whisper the words, "Marcus of Broadway."

So this was the legendary Mr. Marcus, who made performers famous. But the thoughts of little Grace were not for herself. They were for Al Stone. Even as Al leaned over to take the Marcus order her gaze had been alight with admiration for the singing waiter. If only Mr. Marcus knew how smart Al was, how funny he could be, what wonderful songs he wrote!

She tried desperately to catch Al's eye. She must reach him and tell him the name of this distinguished personage!

(To Be Continued.)

Big Aviation Merger

Saskatchewan and Alberta Interests Will Make United Bid For Mail Contract

In the biggest aviation merger in the history of western Canada, commercial aviation interests of Saskatchewan and Alberta have united under the name of the Great Western Airways, Limited, according to announcement made by Capt. Fred. R. McCall, managing director of the Calgary Flying Company.

Commercial Airways, Ltd., Edmonton, and Commercial Airways, Ltd., Regina, decided at a meeting in Regina, to pool their interests with the Great Western Airways, Ltd., Calgary, and make a united bid for the trans-Canada air mail contract.

Arrangements have already been completed for financing the Dominion mail contract to the extent of \$1,000,000 if it is awarded, Capt. McCall announced.

The Great Western Airways will function as one company under the general management of Squadron Leader G. H. Tudhope, who is at present supervisor of airports and airways for the Dominion government. He has accepted this position with the new aviation merger.

Turner Valley Oil

Now Producing At a Rate Of Over 830,000 Barrels Annually

In April, 1929, the Turner Valley produced 54,904 barrels of crude oil, making a total of 769,207 barrels of oil and naphtha during the month. This is at the rate of over 830,000 barrels annually compared with 481,000 in 1928. From the present rate of increase it seems likely that the Turner Valley will produce well over 1,000,000 barrels this year.

Time Has Tested It. Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

A man, as he manages himself, may die old at thirty or young at eighty.

Britain Likes Canadian Honey

Is Growing In Popularity Says Assistant Trade Commissioner

"Honey is fast becoming a staple food on the British breakfast table, and the Canadian product is enjoying a growing popularity," writes Lester S. Glass, assistant trade commissioner at Bristol, in an article in the "Commercial Intelligence Journal." White clover honey and orange blossom honey are well thought of and South American white honey enjoys a high place in the estimation of the buying public. The British statistics for the calendar years 1924 and 1927, show a total import of honey of 73,251 cwt. and \$4,415 cwt., with a value of £201,962 and £221,067 respectively.

SKY TESTED

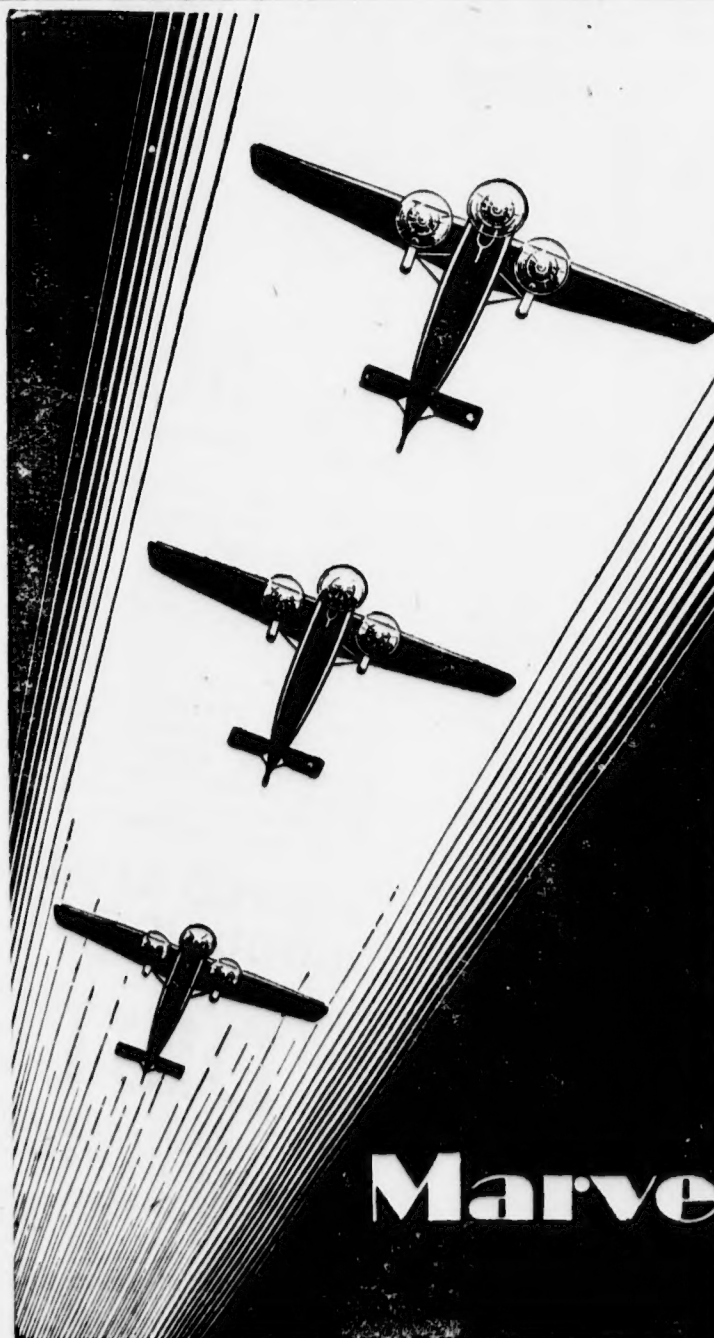

Your modern high-speed motor hums the tune of faster transportation. In speed, power and flexibility, the motors of the highway reflect the influence of the motors of the sky.

The oil that was "good enough" for the motor of 1925 is not good enough for the motor of 1929. Higher speeds, higher temperatures, higher compressions, have created more difficult lubricating problems and demand better oil.

Because Marvelube meets the high temperatures and high pressures of airplane operation it is the ideal lubricant for the modern automobile engine. Its rich lubricating properties are inherited from its base—Peruvian Crude.

On the highways as in the skyways, Marvelube gives smoother performance, lessened depreciation and real operating economy.

There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

RUNNING THE PAPER

Everybody thinks he can run a news-
paper better than the benighted souls
who have been placed by Providence
in that unenviable position. Maybe it's
because the editor's faults are glaring
ones—out in the open in black and
white or, possibly, it is just a queer
quirk of human nature and the job's
so easy anyway.

Running the paper is a sort of side-
line with lots of people. They offer
advice in their spare moments with
the same spirit as they play golf or
pinocle. One would have the editor
a militant suffragist, another demands
that he rail against women voting.
The prohibitionists can't see how any
decent person can be for a regulated
saloon and accuse him of selling out
to the liquor interests if he takes their
side, while wets may say he is being
intimidated by the churches and ruled
by the dregs if he is opposed to the
saloon. The Liberals say his paper is
a dirty rag if he is Conservative in
his sentiment and the Conservatives
say the same thing if he comes out
for the liberal. If the editor is for

anything antics condemn him and vice
versa. If he takes a stand he is molly-
coddle and a jelly-fish. He is a crank,
reformer, fanatic, a four-flusher, or
just a plain idiot, according as he
meets with the desires of his sub-
scribers or goes against them. And
there you are. The average man
never thinks of the hours of toil—
downright, soul-sweating toil—it takes
to get out a paper. He never thinks
of the worries, the trials, the tribula-
tions every editor must undergo.

Some of them are so unappreciative
of his efforts to boost their town and
make money for them, that they won't
even contribute the price of a sub-
scription.

Just remember this: The editor, ap-
art from the laudable desire to make
a decent living for himself, has only
the good of the community at heart.
If he disagrees with you on any sub-
ject—political, moral or educational,
you, and not he, may be wrong.

DRIVERS' LICENSES TO BE ISSUED FOR JULY 1, 1929

Licensing of all drivers of motor
cars goes into effect on July 1, on
which day Alberta will line up with
British Columbia and some other pro-
vinces in that respect. As it is ex-
pected that car registrations will run
100,000 this year, the provincial treas-
ury will be enriched by about \$50,-
000 from driver's licenses.

Every driver of an auto must always
carry his license under the regulations
shortly to take effect. The licenses
will be issued to registered registered
car owners at a cost of fifty cents and
will stand good until called in for
some reason or other. That means that
it is not an annual license and does
not have to be renewed every year as
is the case with the ordinary licenses.

The regulations provide that no per-
son under 16 years of age may be li-
censed to operate a car. If the appli-
cant is between the ages of 16 and 18,
the application must be accompanied
by the signature of the parent or
guardian, who is required to state
that the applicant is competent to
drive and knows the road and motor
laws of the province.

85 DEGREES IN THE SHADE AND BABY

It is 85 in the shade as this is be-
ing written with every prospect of
being warmer. Half an hour ago a
young Mother was giving her baby
an airing in his buggy. Mister baby
was far from happy and didn't mind
letting everyone know it. Mother was
dressed in a cool white sleeveless
dress and wearing a shady hat. Baby
was wearing a hot woollen close fit-
ting hood tied under his protesting
little chin. He was tucked tightly in
to the buggy with several layers of
blanket and on top of that a nice
warm woolly shawl, and although they
could not be seen, it is almost certain
he was wearing woollen stockings.
Comparing mother's warm day out
fit with baby's, it is little wonder that
his protests were loud and long.

Baby feels the heat just as much
as Mother does and suffers more be-
cause he cannot make himself com-
fortable. He has to wait until some
one else thinks to do it.

In the summer heat baby's clothes
should be the minimum. If a mother
has any doubt let her slip her hand
inside baby's clothes and if the little
body feels moist then he is too warm.
Clothe lightly and cover lightly so
that the air may circulate freely over
his skin. This keeps him cool. Give
him cool boiled water between feeds.
He gets thirsty too during hot days.
Do these things and a happy con-

tented baby will be the result.

For "Summer care of babies" send
to the Canadian Red Cross Society,
407 Civic Block, Edmonton, Alta.

This is the time of the year when
Lil Gee Gee dons her bathing suit
and plunges into the surf almost up
to her instep.

Snicklefritz -----

Wedding Guest: This is your fourth daughter to get married, isn't it?

MacTight: Ay, and our confetti's gettin' awfu' gritty.

Liver now sells at 80 cents a pound and it is beneficial if you have anemia. Or own a meat market.

She was only a photographer's daughter but she was well developed.

Stern father to son going back to board-school: "Don't let me hear any

bad reports about you."

Carefree son: "I'll try not to, Dad, but you know how these things leak out."

"So you're married! What's your wife like?"

"Gin, moonshine or anything else I bring home."

A flapper well loaded with bundles slipped on the railway step at the local C.P.R. depot and tumbled to the platform amid the scattered packages.

"Oh, dear," she exclaimed to J.A.M.

"Did you see my Butterick pattern?"

"Sall right, lady," replied the genial agent, placing a fashion sheet in her hand, "I been on this job a long time."

"So your little boy wasn't really lost?"

"No, we found him under the Sunday paper."

She (passionately): Will you ever love another, dearest?

He (wearily): No, never, if I get out of this affair!

"How old are you, little one?"

"I don't know—mummy was 30 when I was born and now she is 28."

THE CALGARY EXHIBITION AND STAMPEDE

The deep-throated roar of encouragement from crowded grand stand, sweet music to the ears of the scores of cowboys who daily risk life and limb during the championship cowboy contests, will ring out with renewed vigor again this year, when the annual Calgary Exhibition and Stampede where \$70,000 in prizes and purses are offered, is held at Victoria Park during the week of July 8 to 13, inclusive.

With the greatest list of purses and trophies ever offered for a frontier contest, Canadian and American cowboys are soaping their saddles and working up their ropes in preparation for the big western celebration, and even at this early date, the biggest entry of cowboy contestants in the history of The Stampede is expected. Agricultural Alberta is preparing for the Stampede and Exhibition in totally different ways. In ranching districts the cowboys are rounding up the best of the worst of the outlaw horses, for only top bronks are shipped in for the big contests, while in the farming districts, purebred cattle, horses, sheep, swine and poultry are being fitted up for display in the various show rings. The exhibition of purebred livestock is a big part of the Exhibition and Stampede and the cattle pavilion, the largest and most modern in Western Canada, will be filled to capacity this year.

In addition to regular prizes for livestock, special prizes will be given for Alberta bred cattle, and not only will all Alberta breeds be eligible to

compete for these prizes, but they will also be eligible for all open classes.

Prizes are also being offered for the dairy products, agricultural products, purebred dogs, fancy work, art, cooking, school work, Indian work, etc. In the grains and seed department, a number of valuable trophies, supported by generous cash prizes are being offered and a big entry list in these classes is expected.

ROSEBUD TENNIS PLAYERS VISIT CARBON

An interesting Tennis match was played at Carbon on June 23rd, between players representing the Rosebud and Carbon Lawn Tennis Clubs. The result was a win for Carbon by 6 matches to 1. The following are the results and scores:

Mens Singles—R. Lee of Rosebud defeated Len Poxon of Carbon 6-1, 6-4. H. Brown of Carbon defeated C. Sangster of Rosebud 6-4, 6-4.

Mens Doubles—L. Poxon and J.M. MacDonald of Carbon defeated R. Lee and G. Sangster of Rosebud, 6-5, 4-6, 6-3.

H. Brown and W. A. Braisher, Jr. of Carbon defeated Gill and Dougal of Rosebud, 6-4, 6-3.

Ladies Singles—Mrs. Laing of Carbon defeated Miss Jones of Rosebud, 6-1, 6-1.

Ladies Doubles—Mrs. Laing and Miss K. Ramsay of Carbon defeated Mrs. Sangster and Miss Jones of Rosebud, 6-3, 6-5.

Mixed Doubles—J. M. MacDonald and Miss K. Ramsay of Carbon defeated Mr. Gill and Mrs. Engbaum of Rose-

bud, 6-0, 6-2.

After the match the ladies of the Carbon Tennis Club provided a banquet in the Masonic Hall and a very pleasant time was spent by the members and visitors. Mr. Lee, secretary of the Rosebud Club, in a few well chosen words thanked the Carbon club for their hospitality and intimated that an invitation would be sent to them to visit Rosebud in the near future.

LOCAL MIXED DOUBLES COMPETITION

The following are the results and scores in the Carbon Mixed doubles, second round.

H. Brown and Miss C. Ramsey defeated R. C. Burr and Miss M. Laing, 4-6, 6-3, 6-3.

J. M. MacDonald and Miss M. Wiere defeated A. Poxon and Miss R. Ramsay 6-2, 3-6, 6-1.

W. Poxon and Miss Braisher defeated P. Wells and Miss Hodgson 4-6, 6-0, 6-0.

N. Nash and Miss Paton defeated N. McClure and Miss I. Nash 3-6, 6-3, 6-4.

R. Appleby and Miss James defeated H. Wilson and Miss MacDonald 6-4.

G. Ramsay and Miss Hart defeated P. Worsley and Miss A. Fraser 6-3, 6-3.

E. Morritt and Miss English defeated W. Peters and Miss Watkins 6-1, 6-1.

W. A. Braisher and Miss Hepburn versus J. Taylor and Miss Miller, not yet played.

Apply the Same Principle

During recent years there has been a decidedly better understanding between the east and the west of Canada, and between the Maritime Provinces and the rest of the Dominion, based on closer acquaintance and knowledge of the problems confronting the people in each of the major sections of this far-flung country. There is today far less of sectionalism, prejudice and misunderstanding than in any previous period of Canada's history, and, happily, this spirit of goodwill and co-operation is growing more and more pronounced.

Anything and everything that will tend to promote this wider knowledge and better understanding should be done and encouraged. We believe goodwill and understanding can only be brought about and maintained by frankness and the dissemination of knowledge. That is, eastern people must be made and kept acquainted with actual facts about the west and informed as to the views, opinions and ambitions of the west, and, vice versa, western people must be informed in like manner about the east. And it is particularly the duty of the newspapers of the Dominion to discharge this patriotic duty.

It is in the performance of that duty we would draw attention to a recent editorial article appearing in "The Financial Times," Montreal, dealing with the subject of the revision of the Grain Act. To much of that article no exception can be taken, but the whole difficulty is that it is based upon an entirely wrong conception, which fact is made abundantly evident in the concluding sentence of the article, as follows: "The important consideration is to protect the buyer, which will at the same time be a safeguard on the dependable reputation of Canadian wheat in all markets."

This may be the eastern viewpoint, but we submit the western viewpoint, and that is that the word "producer" should be substituted for the "buyer" in the sentence quoted.

The person entitled to receive first consideration in matters affecting the grading, mixing, transportation of wheat is the man who grows the wheat, not the man who buys it, or transports it, or mills it into flour. The status of Canadian wheat in the markets of the world must remain unimpaired at a high standard, not so much for the benefit of and protection of the British or foreign buyer, but in the interests of and to protect the Canadian farmer who grows the wheat in order that he may obtain full value for his product and ample reward for his labor.

Submitting the western viewpoint for the benefit of eastern people, it may well be asked of "The Financial Times," and other exponents of its dictum that in matters affecting the grain trade of Canada the important consideration "is to protect the buyer," whether it, and they, are equally prepared to accept the principle that, in all matters affecting, say the customs tariff, the important consideration is to protect, not the manufacturer of the financier who has invested in manufacturing industry, but the great mass of consumers of Canada, the people who "buy" the products of these factories?

If it is the "buyer" of the products of the farm who are deserving of first consideration, and who above all should be protected, then pure logic must force acceptance of the principle that it is the "buyer" of the products of the factories who must likewise be given first consideration, and their interests recognized and protected first and foremost in all matters of tariff or other legislation affecting such industries.

In other words, according to the eastern view, as they would apply it to the farmer, it is not the industry that should be protected, or those who have made investments in industry and labor in it, but the buyers of the products created by such industry. The truth is, however, that when these same interests advance tariff and other arguments in their own behalf they directly reverse the principle, and resolutely contend that it is the producing manufacturers who must receive first consideration and be accorded protection, rather than the buyers, i.e. the consuming masses of the Dominion.

Good understanding and complete national co-operation between east and west cannot be built up in this way. It is impossible to apply one principle toward western agricultural industry and an opposing principle to eastern manufacturing industry. The same principle must be applied both east and west.

Double Jeopardy

A correspondent assures us that the following notice has been posted around about an electric station in Donegal: "Beware To touch these wires is instant death. Anyone found doing so will be prosecuted."

Emerald Lake, Yoho Park

Beautiful Emerald lake, in Yoho national park, British Columbia, was first visited by Tom Wilson in 1882 while searching for stray pack horses. As far as is known, he was the first white man to visit this lake.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Settlement Scheme Nears End

Three Thousand Family Settlement Plan Has Been a Success

In a few weeks the 3,000 family settlement scheme will end and no project of like nature will take its place, Hon. Robert Forke, Minister of Immigration, stated recently. There was no desire to make the project an endless one by replacing settlers who had abandoned farms, he said.

The project had been successful in every respect, and Canada had acquired an increase of about 17,000 souls through it. Already 3,250 families had been brought to Canada under the scheme; a total of 520 families had abandoned their farms for various reasons; 34 had been deported; 72 had returned to Great Britain of their own accord, while 414 remained in Canada in other employment, either in agriculture or other work.

WHAT OUR GIRLS NEED

When Languid, Anaemic and Feeling Run Down

When a girl grows languid, dull and irritable, when her color fades and she becomes pale, you may be sure that the cause is anaemia, or impoverished blood. The bright, red color of the blood is caused by the presence in it of millions of tiny red corpuscles. It is these tiny bodies that carry nourishment from the blood to the tissues. They also cause the glow of health in cheeks and lips. When a girl's blood is deficient in these red corpuscles her body is under-nourished, her nerves starved, and there is serious danger of a decline. What is needed is an improvement in the quality of the blood, and it is a scientific fact that a course of Dr. Williams' Pink Pills will so enrich and purify the blood that all traces of anaemia and its accompanying weaknesses will disappear. As an evidence of the value of Dr. Williams' Pink Pills in cases of this kind, Mrs. John Finlin, Howland Station, P.E.I., says: "I am glad to take this opportunity of recommending Dr. Williams' Pink Pills. My daughter was in a badly run down condition; very pale, nervous and much under weight. We tried several medicines, but they did not seem to do her any good, so I decided to give her Dr. Williams' Pink Pills. Almost from the start she began to improve, and after the use of a few boxes she had gained in weight, her appetite improved and she had a better color in her cheeks—in fact she had fully regained her former good health. I would advise every mother of young girls to give them Dr. Williams' Pink Pills at the first sign of an anaemic condition." You can get these pills from any medicine dealer or by mail at 50c a box from The E. C. Williams' Medicine Co., Brockville, Ont.

Bad Either Way

Scot (to friend while visiting London): "Now, mon, I can't stand taxicabs! When I sit wi' ma back tae the driver, it makes me feel sick, and when I sit wi' ma face tae the taximeter, it makes me feel nae better."

Keep Minard's in the Medicine chest.

Refine Gold At Mint

Most of Canada's gold bullion is now refined in the Royal Mint at Ottawa.

Wretched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

Canadian Jersey Breeders

Good Market In States For Canadian Bred Jersey Cattle

Writing from Tupelo, Mississippi, W. Elmo Ashton, fieldman for the Canadian Jersey Breeders' Association, points out that it is apparent to anyone going through the States of Georgia, North and South Carolina, Mississippi and Alabama that the southern states offer a great market for Canadian Jerseys. In the past year and a half these states have taken from Canada over 300 head of young bulls and heifers.

With a population that ranks 28th among the countries of the world, Canada is fifth in total exports and third in total turnover of trade.

For sunburn—apply Minard's Liniment.

Discover Radium Mines

Find In England Has Already Yielded \$5,000 Worth

Radium mines are not discovered every day, but some meteorologists, while exploring a lead near Matlock, England, had their candle lights extinguished by bad atmospheric conditions. They saw ahead of them a dimly lighted cave, and a sample of earth taken from the cave was sent to Mme. Curie, who declared it to contain radium. The mine and estate was then bought for \$150,000. Further exploration, it is stated, has resulted in the discovery of another radio active mine, which is now to be exploited. The estimated value of the radium already found is \$5,000.

Zeppelin's Flight Cancelled

Atlantic Trip Of German Dirigible Postponed Until 1930

A special despatch to the Telegraph Union from Friedrichshafen said that the trans-Atlantic flight to America of the dirigible Graf Zeppelin had been postponed until 1930.

A flight around the world for the big airship was scheduled to start about July 15.

The Graf Zeppelin's last attempt to fly to America ended on May 17, when crippled motors forced her to turn back over Spain.

Small Churches In England

What is said to be the smallest ecclesiastical building in Britain is St. Margaret's Chapel, Edinburgh. This little church is only 16½ by 10½ feet. Dorset church at Winterborne Thompson, is 23 by 14 feet. Churches at Culbone and St. Lawrence are also small, having less than 420 square feet of space.

Sheet Glass Factory

Calgary May Be Selected As Suitable Place For Establishing Plant

Calgary is very suitable for the establishment of a sheet glass factory, and it may be chosen as the site for such within a year, according to F. S. Hobbs, of Toronto, vice-president of the Consolidated Plate Glass Company, who has been inspecting various cities in Western Canada with a view to locating a branch plant. A big business is being done in plate glass in the Prairie Provinces, he said, making it advisable for the firm to enlarge its present holdings.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Exterminator is an excellent medicine to destroy worms.

Believe It Or Not

A small tortoise, on which Mrs. Sarah Blair, now dead, carved her initials and the year "1862," 67 years ago, has been found by her daughter, Miss Mary Blair, within a mile of the original Blair home at Scottsburg, Ind.

In The Locker Room

HAMILTON - ONTARIO

Western Representatives:
HUNTER-MARTIN & CO., REGINA, SASK.

WILL NOT FOLLOW LEAD OF U. S. IN SHAPING TARIFF

Grand Bend, Ont.—Independence of action on tariffs is the policy of the government, and upward revision of tariff schedules by the United States, being a matter entirely for the United States to decide, calls for no retaliation or reprisal on the part of the Dominion. This was the keynote of addresses by Hon. Ernest Lapointe, minister of justice, Hon. J. C. Elliott, K.C., minister of public works, and Hon. W. D. Euler, minister of national revenue, who spoke at a picnic here under the auspices of the South Huron Liberal Association.

Mr. Lapointe made extended reference to policies advocated by Hon. R. B. Bennett, Conservative leader, at present on a tour of western Ontario.

"The remedy he suggests is that we should adopt American methods in our fiscal policy," Mr. Lapointe said. "But our ideas and ideals are Canadian and British, and we won't follow American methods. We will shape our policies, fiscal and otherwise, at Ottawa. We won't take them from Washington."

"We are satisfied with Canadian methods and British doctrine and if necessary we will find other outlets for our trade. We always have in mind Canadian interests. Since 1921 have not the Canadian people been satisfied with the way our financial policies have been shaped under Mr. Robb, whose budgets we are proud to mention during the last election?"

"We have not been dictated to by American theories. We have tried to meet the problems of Canada as conditions were at the time. British preferential trade treaties have been part of our policy."

"The Opposition lately has been coming to adopt that policy, but the fathers of British preference were the late Sir Wilfrid Laurier, and the Rt. Hon. W. S. Fielding. From the start it was successful and our exports to Great Britain increased \$75,000,000 the first year. Last year they reached \$446,000,000 and we bought only \$193,000,000 of British goods. But if you expect the nations of Europe to give you trade, you must buy from them. Trade, after all, is exchange."

"In view of the figures I have quoted I cannot understand the complaint from some quarters about British goods coming here which they have had to sell us. We have concluded forty-three trade treaties with other nations and our exports as a result were \$220,000,000 in 1929."

"We will continue to shape our financial policies on a national basis in the interests of all sections in Canada," Mr. Lapointe continued. "We will legislate not for one class, but for all classes and groups of the Canadian people. A country which is as large as Europe cannot hope to live to itself, nor to erect barriers with the rest of the world. The future is with us."

"Let us not look at the past for reasons of doubt and despair, but to the future for reasons of hope and belief. God and nature are with us and nobody is able to fight for long against God and nature. Our guarantee of success is within ourselves. We continue to improve our method of production and you may be sure our prosperity will continue."

Forty Believed Drowned

Bogota, Colombia.—Forty persons are believed to have drowned and more than 100 injured in the practically total destruction of the town of Sevilla by floods from the Quilande river after a landslide from a hill into the river had caused it to change its course. Sevilla, which is in the department of Cauca, had out 6,000 inhabitants.

National Wealth Grows

Ottawa.—The national wealth of Canada, exclusive of undeveloped natural resources, is placed at \$27,687,000,000 for the year 1927, in an estimate made public at the Dominion Bureau of Statistics. This is an increase of \$100,000,000 over the 1926 estimate.

W. N. U. 1791

Warning Was Disregarded

Cleveland Clinic Told In April That Film Used Was Dangerous

Cleveland, Ohio.—Making no attempt to fix the blame but pointing out that the Cleveland clinic had been warned of faulty X-ray storage, which cost 123 lives by fire and poison gases, May 15, Coroner A. J. Pearce completed his inquest after a month of investigation in a report on file with official county records.

The warning was sent to the Ohio inspection bureau of the fire underwriters' investigating service last April. It called attention to the fire hazard in the type of film used at the clinic, urged use of another kind and advised clinic officials that the film, if burned, would generate great clouds of noxious fumes. The film was stored in the basement and was ignited by a means not determined in the investigation.

The report placed the official number of dead at 123. They were killed by a combination of nitrogen peroxide gas with carbon monoxide the coroner said.

May Revise Tariff

Drastic Changes Considered By Dominion Government Is Report

Toronto.—The Toronto Globe published the following despatch from its Ottawa correspondent:

"Tariff changes which will have a revolutionary effect on Canada's external trade, are under consideration by the Dominion cabinet. In response to demands from all parts of the country for action, the government was taking preliminary steps toward what will undoubtedly be the most drastic revision of fiscal policy of the present century."

"Present prospects are that the vital changes will take the form of a material increase in the British preference, if not the inauguration of complete 'free trade' on the bulk of British or Empire goods, while the general tariff, which applies to imports in the United States will remain stationary."

Prepare For Another Election

Liberal Party In Britain Sees Possibility Of Another General Contest

London, Eng.—The possibility of another general election in Great Britain at no distant date is being taken into account by the Liberal party, which holds the balance of power in the new parliament. The Liberal administrative committee passed a resolution moved by Sir Herbert Samuel, chief organizer, "to maintain and strengthen the organizations in the constituencies."

It was also resolved that "whenever an appeal is made to the country the elections will again be strenuously contested by the Liberal party."

Health Authorities Conduct Investigations

Hundred People In Bowmanville, Ontario, Suffer From Ptomaine Poisoning

Bowmanville, Ont.—Health authorities are taking extra precautions and conducting investigations as the result of the second outbreak of ptomaine poisoning here in four days, during which over 100 persons have been affected in varying degrees.

The first outbreak occurred when scores of children and adults were poisoned by contaminated milk. The second and more violent cases occurred at a Sunday school entertainment and supper. Tainted salads are believed to have caused the outbreaks.

Air Line Crash

Lydd, Eng.—The coroner's inquest on the four victims of the air liner 'City of Ottawa's' crash into the channel, returned a verdict that the persons had lost their lives by drowning caused by the accidental fall of the aeroplane into the channel.

Ottawa.—The exchequer court has given judgment that the Sun Life Company has not the authority under its charter, to increase its capitalization from \$2,000,000 to \$4,000,000. The judgment has been issued by Mr. Justice McLean.

IN BRITISH CABINET

Margaret Bondfield, successful labor candidate, is the first woman to be appointed to a British cabinet. She is the new minister of Labor.

Alberta Adopts Old Old Age Pension

Movement Now Accepted By All Provinces In West

Ottawa.—Answering the communication of Hon. Peter Heenan, minister of labor, informing them that an order-in-council had authorized his proceeding to negotiate with Alberta for an old-age pensions scheme, the government of that province telegraphed acceptance of the plan.

When the Dominion cabinet meeting approved the scheme for Alberta, Mr. Heenan acted immediately and the reply came back to him within a short time of Alberta's notification. Alberta will adopt the pension system starting August 1, 1929. British Columbia, Saskatchewan and Manitoba have for some years enjoyed the old-age pensions scheme. Alberta's entry into the scheme links up the entire west in the movement.

Will Enter Competition

Canadian Mounties To Enter Rifle Matches At Camp Perry, Ohio

Washington.—Four Royal Canadian Mounted Police will compete in the National Rifle and Pistol matches at Camp Perry, Ohio, in August.

The Canadians, the highest in 1929 revolver team competition, will fire against United States entries in the international police pistol match August 31. The men are Corporals A. D. Ford, D. E. Forest and J. G. Pelletier, of Lethbridge, Alta., and Constable J. D. O'Connell, of Ottawa.

Sacrifices Life For Child

Kingston, Ont.—Kenneth McRow, the four-year-old child of whom Fred Denys sacrificed his life by hurling himself from the wagon he was driving on the highway five miles from here to sweep the child out of the path of an oncoming auto, died in hospital several hours later, never recovering consciousness after being struck by the machine.

Trotzky Would Enter U.S.

Constantinople.—Leon Trotzky, exiled Soviet leader, intends to apply to the United States government for permission to enter the country, according to reports current here.

Cabled French Airman

Lindbergh Sends Message Of Congratulation To Trans-Atlantic Fliers

Paris.—Jean Assolant, Rene Le-fèvre and Armeno Lotti, Jr., received by cable congratulations from Col. Charles Lindbergh, for their trans-Atlantic flight from Old Orchard, Maine, to Comillas, Spain, in the Yellow Bird.

The colonel's message, addressed to all three of the aviators, said: "On returning to New York I have just learned of your successful crossing. Please accept my sincere congratulations and best wishes."

The French fliers immediately cabled him in reply:

"We thank you heartily for your affectionate telegram. Our greatest claim to glory has been to have followed the route you traced two years ago with incomparable mastery in your flight from New York to Paris."

"Your magnificent example of courage, of tenacity, of science as a pilot and navigator guided us every instant of our route. We address to you our most cordial and respectful salutations."

Confesses To Bank Theft

Eighteen-Year-Old Youth Pleads Guilty In Vancouver Police Court

Vancouver.—Arthur Thomas, 18, pleaded guilty in police court to a charge of robbing the Grandview branch of the Royal Bank of Canada, and elected summary trial.

Thomas, who held up five bank employees as they came to work, was arrested in New Westminster a few hours later and practically all of the stolen money recovered.

The bank was held up as its manager, J. W. Logan, and four other employees were arriving to commence work for the day. Each was accosted as he entered and trussed up by the youthful bandit. He forced the manager and cashier to open a vault from which he seized money and then left the building by a back entrance. He left his prisoners in a cubicle, the door of which they broke down shortly after his departure.

Solved All Murders

London Police Report All Murders Solved In 1928

London, England.—Every murder committed in London in 1928 was solved and the culprit was convicted or took his own life, according to the official police report.

The report of the commissioner of police showed that there were 18 murders of persons more than one year old. Eleven culprits were convicted and seven committed suicide, the report said.

Gets Month's Reprieve

Ottawa.—A reprieve until July 19 has been granted to John Ivanchuk, convicted of murder, who was sentenced to hang on June 21. Cabinet, having considered the case, has decided to put the execution off for a month. In the meantime it is expected that new evidence bearing on the case will be submitted to the federal authorities for consideration. Ivanchuk was convicted of the murder of License Inspector Harry Constable at Cochrane, Ont.

DRIVE AGAINST RUM RUNNERS ALONG BORDER

Windsor, Ont.—With a warning by Attorney-General Price that crime would not be permitted within the borders of the province of Ontario and with the United States blockade tightening, rum runners are continuing their activities along the border. Reports told of feverish activity at the export docks as cargoes of liquor destined for United States river and lake ports were being loaded.

Aroused by the reports of the kidnapping of a newspaper photographer and revolver battle between rum-runners and a United States custom patrol cutter, Attorney-General Price announced that if necessary he would double the provincial police along the Windsor-Niagara Falls sector to protect Canadian citizens.

It is along this section of the border that the battle lines are most closely drawn due to recent strengthening of the United States preventive forces.

As a result of the statement of the attorney-general, the rum-runners may find their activities on the Canadian side of the line more restricted. The attorney-general was emphatic that crime would not be permitted within the borders of the province.

Meanwhile, reports from border points indicated that despite the drive against the rum-runners, activity at the border export docks continued. Rum-runners were reported active at many points.

A party of rum-runners engaged in a pistol battle with a United States customs patrol cutter, the cutter being forced to return to port after being peppered with bullets, while the rum-runners retreated to the Canadian shore. The rum-runners crouched behind bags, apparently filled with liquor, as they exchanged shots with the customs men.

At Dunkirk, N.Y., two men were arrested when a United States coast-guard boat captured a motor boat loaded with beer.

Two recent developments were placed before Dominion government officials. The department of external affairs received a report on the incident at Sandwich when it was claimed a private speed boat, not engaged in the liquor traffic, was fired on by a United States patrol boat. Should further investigation warrant, the department will investigate this affair. The department of national revenue was notified of the kidnapping of the photographer of a border cities newspaper but the opinion was expressed that it did not come within the scope of the department.

Report Seeing Huge Meteor

Fell Into Lake Superior Says Prospector Near Soo

Sault Ste. Marie, Ont.—A strange tale was brought down to the Soo from Michipicoten Island by Frank Kaskick, prospector, who said a huge meteor about the size of a ship fell into Lake Superior close to the island at 10 o'clock on the night of June 11. The meteor illuminated the island with the brilliancy of daylight and created a rumbling noise which was heard for two minutes after it fell.

Quite a sea arose after the meteor struck the water and the level of the lake rose appreciably.

Will Not Resign

Lynn, Mass.—"I don't intend to get out, and no power on earth can make me. This old age stuff will have no effect on me." Thus did Police Chief Thomas M. Burke, who is in his 84th year and who has been a policeman for nearly half a century, recently answer persistent rumors that he was about to resign.

Experiment Fails

Hong Kong. Army aviators carried out rain making experiments above Hong Kong, dropping a chemical known as "Dealin" from the clouds. The experiments were not successful. Hong Kong is suffering from severe water famine necessitating drastic action to replenish supplies.

Prince at Garden Party

Prince Henry, third son of the King, receives at a garden party held in honor of His Majesty's birthday, at Victoria, B.C. Lieutenant-Governor Randolph Bruce is on the right and Miss Helen Mackenzie, the latter's niece, on the left. The Prince is returning to England by Canadian Pacific Steamship and Railway from Japan.

WORLD'S FAMOUS THREE FUEL HART PARR

In special tests conducted by nationally known engineers who used cheap distillate fuel the great Hart Parr 18-36 registered a draw bar pull of 5,535 pounds at 2 miles per hour and 4,075 pounds at 3 miles per hour, on the belt it easily pulled the amazing load of 43 horse power. The Hart Parr is a three fuel tractor and will burn gasoline, kerosene or distillate equally well. It is the one tractor that develops its power from the cheapest low grade fuel. Hart Parris are made for small, medium or large farms and have three forward speeds to speed up hauling and field work. Drive yourself and experience the thrill of controlling tremendous power.

DOUGLAS FAIRBANKS

— IN —

THE
GAUCHO

No two Fairbanks films are ever alike. There's something new—something to talk about! The Gaucho gives you the Bolos! And Doug's feats with the bow and arrow, the cutlass and the whip.

A SPECIAL PICTURE AT
REGULAR PRICES

DON'T MISS IT

DRUMHELLER-ROCKYFORD
BASEBALL GAME TO BE ON
TUESDAY EVENING, JULY 2

Final arrangements have been made by the committee in charge of the baseball for July 1 and 2 and on the first day the four intermediate baseball teams, Acme, Three Hills, Rockyford and Carbon will play. The second day, July 2, immediately following the stampede events, Drumheller seniors and the Rockyford seniors will contest for the big money. This last game should be well worth seeing and no doubt some real baseball will result.

CARBON DAM HOLDS 5 FT. WATER

Considerable work has been put into the dam in the creek the past week and about five feet of water is being held for bathing. The water is now running over the spillway that has been constructed and if the dam is watched from time to time and any leakage stopped immediately there should be no difficulty in holding this amount of water all summer and thus provide Carbon with another sport that most prairie towns do not possess.

STAMPEDE GROUNDS BEING
CONSTRUCTED

A car load of posts arrived on Monday and the Carbon Elks have formed a bee and are putting the stampede grounds in shape by putting a fence around the grounds and building corals, etc. This ground will be used as a permanent place and will be an asset to the town and support is being sought from outside interests, as the cost of this work has been estimated in the neighborhood of \$600.

FAIRBANKS WORKS HARD

If the audience could see in the making, the film story that screens so smoothly, the miracle of the movies would seem tenfold greater. But few indeed are privileged to catch a real glimpse "behind the scenes" of the movies.

A grilling series of night shots kept Douglas Fairbanks and his Gaucho company burning midnight oil for weeks. This United Artists production, coming to the Carbon Theatre on Friday and Saturday, June 28 and 29, presents vast scenes where many hundreds of people and thousands of animals appear, their numbers exceeding those of all previous Fairbanks pictures.

The reason some men talk in their sleep is because their wives won't give them a chance in the daytime.

A TREAT IN STORE!!

ABIE'S IRISH ROSE
Coming to the Carbon Theatre
Friday and Saturday, July 5 & 6

ANNOUNCEMENT

Melville Anderson, of Anderson & McLean, Sight Specialists of 224-8th Ave. W., Calgary, will make his next regular visit to the Drug Store, Carbon, Wednesday, July 3rd.

CLASSIFIED ADS.

Noxious Weeds---

Are unsightly in fields and gardens and along roadsides.
Rob the soil of valuable plant food.
Occupy space which should produce grain.
Reduce the grade of the threshed crop.
Cost money to thresh, haul and ship to market.
Entail heavy losses in dockage.

The first week in July has been designated as

WEED WEEK

and a special campaign urging the eradication and control of noxious weeds will be conducted.

Watch for details in the press and for announcements of meetings and radio addresses.

Paint - Paint

I have just received a large shipment of LOWE BROTHERS high standard HOUSE PAINT in various assorted colors. Paint is determined only by the area it will cover efficiently, not by the price per gallon or quart. Paint values are determined by a yard stick, not by price per package and when it comes to actual values there is the other consideration of the brilliancy and durability of High grade paint.

LOWE BROTHERS outside white paint at \$3.65 per gallon with an absolute guarantee back of it, is the very best value ever offered the purchasing public of this district.

If you are in the market for RED BARN PAINT, my prices range from \$1.60 per gallon up.

Who Does Your
Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

WHEN IN NEED OF PRINTED MATTER CONSULT
